

Capability Statement

Established in 2004, Compressed Air Australia is your supplier of compressed air-operated products that are engineered to solve problems for industrial plants. Upgrading to our products allows energy conscious plants to lower costs by reducing compressed air use. Products are OSHA compliant and CE certified to assure safety to the companies and personnel who use them.

Compressed Air Australia Pty Ltd offers high quality, energy-conserving solutions that solve problems in industrial plants throughout Australia and the Pacific Islands. We supply the Food, Pharmaceutical, Manufacturing, Mining, Agricultural, Pulp and Paper, Chemical, Electronics/Engineering sectors, and Commercial Facilities with innovative problem-solving products.

Product Lines

- Vortex Tubes that produce refrigerated air for spot cooling;
- Cabinet Coolers for cooling electrical enclosures;
- Air Amplifiers, Air Knives, Air Nozzles, Air Wipes, and Safety Air Guns to blowoff, cool dry and clean;
- Optimisation products to control and reduce air usage;
- Vacuum Generators for lifting applications;
- Line Vac Conveyors to transport bulk materials, scrap and waste;
- Liquid Atomizing Nozzles to rinse, humidify and control dust;
- Industrial Vacuums for liquids and dry materials;
- Ionising Products eliminate static electricity and dust;
- PIPETITE wall boot seals pipe and tube penetrations through ceilings, walls and floors;
- ToolReg, CartReg and SaveAir in-line compressed air regulators;
- FluidReg, EcoReg and OxyReg in-line fluid and oxygen regulators;
- HoseGuard air fuses to immediately shut off the air supply in the event of a broken compressed air hose or pipe.

Core Competencies

We operate our business with core principles that can be attributed to our success. You can expect:

- Fast delivery
- Easy ordering
- Knowledgeable staff that offer total support
- Modified versions of products when stock models won't work
- 100% satisfaction guarantee

We ship orders quickly, buy in large volume and expect fast shipment from our suppliers. Significant amounts of inventory are stocked on site. If there happens to be something we don't have in stock, we will get it for you in a timely manner.

Ongoing Training

The success of our company can be attributed to our responsive staff providing excellent customer service. Our employees are well educated and understand the industries we service. Ongoing education and training from our various suppliers keeps us up-to-date with the latest technology so we can better serve the companies who seek our assistance.

Distributors

Strategically located stocking distributors are in the main population centres to serve our customers. Our head office and distribution centre is located in Darwin, Northern Territory, where we assist our clients with their applications by telephone and email.

Compliance & Safety

Products meet Safe Work Australia safety compliance requirements. Compressed air products meet OSHA standards for dead-end pressure and noise exposure, and are CE certified. Where applicable, products meet RoHS compliance. Electrical products are UL Listed.
